Customer Journey Map — Financial AI Analyzer

Stages of the User Journey:

Stage	User Actions	Thoughts	Emotions	Opportunities
Awareness	User searches for financial analysis tools online	"I need a smarter way to analyze financial data"	Curious	Provide clear platform introduction
Exploration	User visits the Financial AI Analyzer platform and explores features	"Can this tool analyze my financial reports?"	Interested	Show demo dashboards and AI insights
Data Upload	User uploads financial datasets or reports	"Will the AI correctly analyze my data?"	Slightly uncertain	Provide simple upload process
AI Analysis	AI processes the data and generates visual insights	"This helps me understand my finances better"	Excited	Provide clear charts and explanations
Decision Making	User reviews insights and predictions	"Now I can make better financial decisions"	Confident	Provide recommendations
Continuous Use	User regularly monitors financial performance	"This tool saves time and improves planning"	Satisfied	Provide alerts and updates
